

LOCAL AND OTHERWISE.

A. Adleman of DeLamar is visiting his family here.

James Nesbitt returned with his new bride last Sunday evening.

The present term of the Eagle Valley school will end about April the 5th.

Read the legal notice under the head of New-to-Day. It may be of interest to you.

The legislature having adjourned, our solons may be expected home with almost every stage.

We have had a variety of weather the past week and no sign of any improvement for the better yet.

The next meeting of the Early Hour Whist Club will be held Saturday evening at the residence of Mrs. M. Carman.

H. Jacobson, after visiting DeLamar for a few days, returned to Pioche on Sunday last and continued on to Milford Tuesday.

J. C. Lynch's warehouse, situated on Lacour street, is being torn down and will be moved to DeLamar and erected there.

James and George Nesbitt went to Ferguson District yesterday to examine the Magnolia mine, it is said, with a view of purchasing.

The Nevada Legislature adjourned sine die on Monday last. Nothing of special importance was transacted at the session just passed.

St. Patrick's day passed by very quietly here. No one seemed very jubilant over the event and the day's celebration closed very quietly.

The dance given here on Monday night was an enjoyable affair and while the hall was not crowded everyone in attendance had a good time.

It is stated that only three individuals have any right to say "we" in speaking or writing viz: an emperor, an editor and a man with a tapeworm.

The Professor has purchased a bicycle built for two, to be used principally between this place and the Rice fields in one of our neighboring valleys.

It is stated that Hon. H. F. Bartine will leave Nevada in a very short time, and will take up a residence in Salt Lake City, where he will open a law office.—Ex.

The monument recently erected at the grave of Mrs. Geo. B. Warren is finished and is a nice piece of work. The stone was procured at a quarry in Ferguson district.

After a few days visit here J. C. Lynch went to DeLamar Friday. He will open a general merchandise and liquor establishment in DeLamar. We wish him the best of success.

Execution has been issued out of the District Court in the case of Livingston & Co. against J. J. Manning and John E. Ferguson on a judgment for \$450.00 obtained at the December sitting.

Antone Depauls came up from DeLamar on Saturday's stage and spent several days here on important business. Tony has given up the lease on the Flagstaff mine and will seek other employment.

Active development work is being started in Panaca mining district by the Advance Gold Mining Company. Wm. Lloyd left here on Saturday last with a force of men to open up the Advance mine recently purchased.

A social dance took place in Spring Valley last Friday evening and was well attended. Eagle Valley as well as Panaca and Pioche was well represented. Dancing commenced at about nine o'clock and the good time continued until seven Saturday morning.

There will be no Constitutional Convention called by the present Legislature. Although Senator Patchen's resolution passed the Senate it failed to receive the necessary two-thirds majority. The taxpayers must continue to support a lot of high salaried officials in idleness.—Ex.

The Nevada Macaroni Factory, an industry recently established in Reno, is a complete success. Some six hundred pounds of macaroni, vermicelli and the like, are turned out every day, and the proprietor is of the opinion that within the next six months his factory will be run to its fullest capacity—one thousand pounds daily.

SENSATION AT CARSON.

Eighty Thousand Dollars Took Wings.

The following dispatch appeared in the Salt Lake Herald of March 19:

Carson, Nev. March 18.—Andrew Mason, government mint inspector and superintendent of the New York assay department, has been in Carson for the past week inspecting the affairs at the United States mint in this city. An article in this evening's Tribune to that effect has given rise to rumors that something was wrong at the mint, as heretofore the presence of a government inspector has been known to the public on the day of arrival. The fact of so much secrecy caused ugly rumors, and this evening it was learned from Hirsch Harris, melter and refiner, that something was wrong at the mint and a shortage had been discovered about a month ago. It was learned that something over \$80,000 had mysteriously disappeared, and that five clean-ups, which were made in quick succession, as it was thought some clerical error had been made, failed to reveal the cause of the shortage. Refined gold and silver to that amount has disappeared from the department, and Inspector Mason expects to be able to clear up the mystery in a day or two. Mr. Harris also stated the reason so much secrecy was observed that it was deemed advisable not to give the matter publicity as that might prevent the discovery and recovery of the loss. No direct charges have been made as yet, and it will probably be some days before the mystery is unraveled. The presence of General Bob Keating in Carson, to whom several mint employees including Superintendent Adams, owe their positions, is a significant fact.

DISTRICT COURT.

The County Clerk received and filed on Tuesday from Judge Talbot, several orders and decisions. The most important decision is that in the case of John Vietti vs. J. Nesbitt & Bro., tried at the December sitting of court here, and growing out of the reduction of ore at the Condor mill, shipped by Vietti from the Jim Crow mine. Plaintiff Vietti recovers judgment for \$25,266.08 and costs, and both parties are given until the 20th of April in which to file and serve any papers looking to a new trial of the case. This is the largest money judgment rendered in this county in many years.

Additional findings of fact by the court were also filed in the water case of John Roeder vs. Charles Stein, strengthening the judgment heretofore rendered in the case.

The final decision of court in the case of C. P. Ronnow and others of Panaca against Jos. and Marchel Delmeu, involving the right to use the water flowing down Condor Canyon was filed, substantially in favor of the plaintiffs.

The date of April 29th, is also fixed as the day for beginning the next sitting of court here.

World's Fair Highest Medal and Diploma.

DE LAMAR DOTS.

Another barber shop has been opened by V. I. Rose in the building adjoining T. E. Edwards' saloon on the south.

The dryer and other machinery for the DeLamar Company has arrived and is nearly in place. It is stated that the mill will start in a couple of days.

Our red men participated in another of their war dances in the canyon below town last Thursday.

With three new saloons in our town business must be picking up.

The Gold Cup continues to hold its own and new developments are being made every day.

As soon as his building is completed, Mr. J. C. Lynch will open a store with a complete stock of general merchandise.

A first class lodging house will be conducted by Mrs. Chas. Culverwell. The Maynard building has been refitted and thoroughly furnished throughout.

H. Riepe formerly of Pioche and Ely has taken charge of the DeLamar boarding house and as he is an old hand at this line of business, satisfaction is assured to all patrons.

A contract to mould and burn 200,000 brick has been let by the DeLamar Company to Mr. Bishop. This work will be done at once.

The Flagstaff mine has been closed down and everything in that vicinity is quiet.

Mrs. Alex Jacobson arrived here recently and will make this place her future home.

Foster's Weather Forecast.

The last bulletin gave forecasts of the storm wave to cross the continent from 24th to the 28th and the next will reach the Pacific Coast about 29th, cross the western mountain country about the 30th, great central valleys 31st to April 2nd, and the eastern states about April 3rd.

This disturbance will occur during a cold period and the week will average below the normal, the warm wave going above and the cool waves considerably below normal.

A few places will have fair rains from this disturbance but generally the rainfall will be deficient and signs of an approaching drought will be apparent.

The warm wave will cross the western mountain country about 29th, great central valleys 31st and eastern states April 2nd. A cool wave will cross the western mountain country about April 1st, great central valleys April 3rd and the eastern states about the 4th.

THE NEW LEADER.

Joseph A. Sibley, ex-congressman from Pennsylvania, whom the American Bimetallic league has recommended as nominee for the Presidency, is a young man, and a man of considerable wealth, who is one of the most earnest and enthusiastic silver men in the country. He is rather a tall, slender man, with a smooth shaven face and gray hair. He has rather a striking countenance marked with lines that indicate studiousness, keenness of perception, penetration and aggressiveness. He bears a slight resemblance to Secretary Carlisle of Kentucky more particularly in the expression of his mouth, which indicates fluency and forcefulness of language. During his term in Congress as a Democrat he has made two or three speeches which have attracted wide attention on account of their volubility, quaintness of expression and great daring. His latest speech in which he attacked President Cleveland on the part of his financial policy created a sensation, and was a thing unique in Congressional debate. He is a great student and is said to rival Abou Ben Adhem in his love of his fellow man. He has been very successful in the acquirement of a large fortune, and prides himself upon the fact that he has never sued any man to secure payment of a bill nor in any way taken advantage of the misfortune of his debtors. He is regarded as eccentric in his generosity.

Mr. Sibley says that he does not want the office of President, but that he is devoted to the cause of silver and will lend to the new movement all the assistance he can and will be the candidate for President if that is required of him. He is enthusiastic over the new movement and predicts success to the silver party. The nomination for the Presidency, or rather the designation for leadership, was offered to both Senator Teller and Senator Don Cameron before it was given to Mr. Sibley. Mr. Sibley had repeatedly stated that he did not want the leadership, and even after the two Senators had declined he asked the league to name some other than himself.—Winnemucca Silver State.

Assemblyman J. A. Denton introduced a bill, No. 165, during the last days of the legislature, to establish a fund from which to pay jurors for daily attendance on court when summoned, but not to pay mileage. It proposes to create a Jurors Per Diem Fund by transferring a portion of any surplus which may remain in the present Redemption Fund, and proposes an additional tax for 1896 of an amount sufficient to keep the fund on a cash basis. The ultimate object of the bill is good, but the means of accomplishing it are meagre, as the new fund could not receive any revenue for the present year and the tax for 1896 would have to be sufficient in amount to meet the expenses of both years. The bill was railroaded through the lower house, but the disposition of it in the upper house is not known.

M. J. CARMAN, P. M.

Report comes from White Hills that an immense body of silver ore has been encountered below water level in the G. A. R. mine, owned by the White Hills Company. Samples from the vein run over 1100 ounces in silver and four gold per ton. This is the first strike of ore that has been made below water level and proves that the mines go down.—Kingman (Ariz.) Miner.

A remarkable balloon voyage was made in Germany a few weeks ago by Dr. A. Benson, during which the balloon reached a height of 31,496 feet, or nearly six miles. The balloon was equipped with various instruments for making observations, and much of interest was observed concerning atmospheric physics. Dr. Benson retained consciousness throughout the entire voyage by breathing artificial oxygen prepared for the purpose and carried in bags, and his observations are unusually complete and interesting. It is noteworthy that up to a height of 1,500 meters the temperature rose steadily. At this elevation the thermometer indicated 5 degrees Centigrade above zero. The air meanwhile was foggy and thick clouds frequently hid the earth from view. At an elevation of 5,000 meters the temperature sank to 18 degrees below zero. The atmosphere at this height was very dry, and the sun rays very weak. The artificial respiration was commenced at an altitude of 6,750 meters, the temperature at this height being 29 degrees below zero. When Dr. Benson found himself at 8,000 meters he tried for a moment to breathe natural rarefied air, but found it would be impossible to retain consciousness at such a height in this way. His voice at this height sounded strangely muffled. The temperature in the meantime had sunk to 42 degrees below zero. The extreme height of 31,496 feet was reached two and a half hours after the start, and the thermometer at this point stood at 47.9 degrees below zero. In this extreme cold Dr. Benson suffered considerably, although he was clothed in heavy furs. Two of his fingers were frozen during the trip.

In the State of Washington there is a steamboat which lets no grass grow under her feet (if the Hibernian editor may be allowed a figure of speech.) It is the Flyer, a screw steamboat, 200 feet long, carrying passengers on Puget Sound. She ran 68,695 miles during the year 1894, which is believed to be one of the best records ever made by a boat of that kind. This vessel which belongs to the Puget Sound and Columbia River Transportation Company, makes four round trips daily between Seattle and Tacoma, 27 1/2 miles, or 220 miles a day. The round trip of 55 miles is made in three hours. The distance between these two cities by rail is about 40 miles, but the flyer makes such good time and is so punctual that she is said to be more popular than the railroad trains. The aggregate of lost time during the year is said to have been only 43 minutes.—Scientific American.

A Covina girl, in rummaging through an old trunk, came across a bunch of aged love letters written by her father to her mother in their courtship days. The daughter saw a chance for some fun, and read them to her mother, pretending they were of recent date, and substituting her name for that of her mother and that of a fine young man for that of her father. The mother jumped up and down in her chair, shifted her feet and was completely disgusted, forbidding her daughter to have anything to do with a young man who would write such sickening and disgusting stuff to a girl. When the young lady handed the letters to her mother to read, the house became so still that you could hear the grass sprouting in the back yard.—Azusa Pomotopic.

There is a girl in the East that weighs 90 pounds, there is also a man there who weighs 250 pounds. If both get on the same scales together the two only weigh 150 pounds, or 200 pounds less than the two weigh separately, on the same scales. Who can explain the difference in weight.

The Carson Appeal says Senator Sumnerfield of Washoe has turned Populist. Anybody who is acquainted with Sam Davis, its editor, knows he is different from George Washington—inasmuch as the Father of his Country could not tell a lie; whereas Sam can but won't.—Ex.

Blanks on which to make returns under the Income tax law, are being received. Every corporation is required to make a return whether its business during 1894 showed a profit or not. There are few, if any individuals, in the county to whom the law will apply.

NEW TO DAY.

LEGAL NOTICE.

In The District Court Of The Fourth Judicial District, Of The State Of Nevada, In And For The County Of Lincoln.

In The Matter of the Estate of Conrad Kiel, Deceased:

E. B. Kiel, the executor of the last will and testament of said deceased, having filed his final report and account and petition for distribution of said estate:
Notice is hereby given that the hearing on the same will be had before said Court, at the Court House at Pioche in said County on the 22nd day of April A. D. 1895 at 10 o'clock a. m. of that day or so soon thereafter as the same can be heard, at which time and place all persons interested may appear and contest the same.
J. D. CAMPBELL, Clerk of said Fourth Judicial District Court.

Notice of Forfeiture.

To E. O. Western, his grantees, assigns, heirs,
executors, or administrators and all parties claim-
ing under, from, by or through him:
You are hereby notified that the undersigned co-
owner with you in the mining claim known as the
"West End," situated in Ely Mining District, Lin-
coln County, State of Nevada, has performed the
work and made the expenditures on the said min-
ing claim, required by section 2324 of the Revised
Statutes of the United States to hold the same for
the years 1893, 1894, '95, '96, and '97 and the
amount due from you, your grantees, assigns, or
administrators, etc., on account of such expendi-
tures on said mining claim is the sum of one hun-
dred and seventy-five dollars (\$175).
And if within ninety days after the publication
of this notice you fail or refuse to contribute your
said proportion of such expenditures as co-owner,
your interest in said claim will become the property
of the undersigned under said section 2324.
